PROFILE

Stuart is a highly experienced and results-orientated senior compliance professional with legal training. He has extensive, hands-on experience working within organisations to deliver strategic improvements to their compliance and data protection practices and culture. This has required working closely to build lasting working relationships with other business leaders and their teams.

With specific experience in financial services, M&A and security, Stuart's particular interests and expertise include managing and handling sensitive data.

QUALIFICATIONS

- ✔ Post graduate certificate in Law, University of Leeds, Leeds, UK
- ✔ BA (Hons) Economics and Politics, Bristol Law School, Bristol, UK

SAMPLE EXPERIENCE

Primary data protection officer for a global dance teaching company. Ravi assists the organisation with all aspects of GDPR and data processing for events, seminars and other aspects such as courses, online retail store and processing of student data. Ravi responsibilities include maintaining their Article 30 RoPA documentation and developing their Global Data Transfer Agreement.

As DPO for a UK medical device supply company, Ravi ensures that all transfers of UK/EU sensitive personal data are compliant with GDPR requirements. He also plays a key role developing and shaping their GDPR training for all their offices.

DPO for a major education and awareness charity, Ravi helps them to shape, develop and strengthen their current compliance and plays an active role in developing their website policies, internal policies and ensuring all staff are aware of GDPR requirements.
