Candidate profile

First and foremost, The DPO Centre is a service business. We look only to recruit proactive, motivated, enthusiastic, customer driven, commercially aware team players, who can clearly demonstrate a passion for what they do and therefore offer an ideal fit with our core values and culture.

Due to our continued growth and European expansion, we require further experienced Data Protection Officers based in the Netherlands with a track record in the role, who are compliance driven, can demonstrate excellent communication and presentation skills and have an ability to influence, encourage and support positive change within an organisation.

Successful candidates will possess the ability to manage the demands of a portfolio of clients and are therefore able to prioritise effectively, navigate conflicting client demands diplomatically and maintain the highest degree of confidentiality and professionalism. The role requires fluency, both written and verbal, in Dutch and English.

We are looking for candidates that value attention to detail and who deliver high quality work within agreed timescales. They must be well presented, with the capacity to work on their own initiative, but also to actively contribute to the constant development of our wider team.

Our services are delivered based on a balance of working remotely from home and visiting the client at their offices on certain days each week/month. Therefore, a fundamental requirement of the role is the ability to provide sufficient flexibility to accommodate travel and occasional overnight stays that enable full working days to be delivered to the client. The role will also require a monthly visit to the UK to attend our team days and social events. Therefore, only candidates with the ability to accommodate this requirement should apply. All travel expenses will be covered or reimbursed. You are required to have an EU or UK passport and full clean driving license, and ideally use of a car.

Our mission is "To inspire and develop one remarkable team, that delivers the extraordinary", hence our company philosophy is based on a '#OneTeam' approach. Contact with management and the other members of the DPO team will be frequent, as are the opportunities for team social activities. This therefore not only fulfils the ongoing requirement to exchange knowledge, share experiences, improve our processes, develop our documentation and constantly improve on the best practice framework employed with our clients, but also to ensure that our new recruits feel very much like an integral part of a motivated, sociable and connected team.
