

NISH

DATA PROTECTION OFFICER

SPECIALISMS

- ✓ CCTV
- ✓ Data Subject Access Requests (DSARs)
- ✓ Education - higher education
- ✓ Public sector

PROFILE

Nish is a certified GDPR Practitioner and experienced Data Protection Officer, with a strong background in Corporate IT, the Public Sector and SMEs. Nish's previous experience in business analysis and training, alongside his multi-faceted work with large organisations, stands him in great stead as a Data Protection Officer.

Nish excels in the minutiae of data discovery, and his excellent problem-solving skills mean that he is highly adept at finding and implementing complex business compliance solutions.

QUALIFICATIONS

- ✓ PECB Certified Data Protection Officer

SAMPLE EXPERIENCE

Nish has worked with and provided ongoing compliance support for a range of clients including colleges and schools, a leading international electronic and electromechanical instrument manufacturer, and a large UK holiday provider.

Nish builds strong relationships with his clients, helping them to understand their data flows and ensuring that their data protection notices, policies and procedures are compliant as well as helping them to understand how and where their data is held, ensuring it is regularly reviewed and documented, to maintain accountability.

Nish offers further support with the writing and reviewing of all data protection notices, policies and procedures, and assisting with data breaches and individuals' rights requests. Nish also arranges and delivers tailored data protection training to all levels of data-facing staff.
