### PROFILE

David is a highly skilled Data Protection Officer, with a record of success in various challenging roles within the public, private, and non-profit sectors. He is known for his professionalism, proactive approach, and self-motivation. His dedication to providing high-quality support and advice to clients makes him a valuable member of the team.

David is a knowledgeable Data Protection Officer, skilled in bringing together privacy and cyber security requirements to provide tailored advice and frameworks to his clients.

### QUALIFICATIONS

- ✓ HealthCare Information Security & Privacy Practitioner (HCISPP)
- ✓ IBITGQ ISO27001 Certified ISMS Lead Implementer (CIS LI)
- ✓ GDPR Practitioner Certificate
- ✓ Certified in Cyber Security (ISC2)

### SAMPLE EXPERIENCE

David has been responsible for providing specialist advice as part of the NHS client's digital information services and worked on several NHS projects, incorporating risk assessments, mapping processes and introducing efficient ways to support trust objectives whilst staying compliant. His wider experience in information governance has included various projects requiring his skilled technical knowledge. During his work as an Information Governance Specialist, he advised not only on privacy rights for digital transformation projects but also delivered ISO 27001 gap analysis audits.
