PROFILE

Paul has extensive experience managing compliance, risk and data protection projects in fast paced B2C environments. He possesses exceptional interpersonal skills and advanced communication abilities, enabling him to connect with, and direct cross-functional teams at all levels of seniority. Paul consistently delivers results at exceptionally high standards whilst maintaining commercial objectives. Paul was responsible for the creation, implementation and management of a successful national scale transformation programme to embed GDPR and data protection best practise in the transport sector.

QUALIFICATIONS

- ✓ IBITG Accredited Certified EU General Data Protection Regulation Practitioner
- ✓ BSc (Hons) Forensic Science

SAMPLE EXPERIENCE

UK Data Protection Officer/UK Fraud Protection Manager for a national passenger transport company. During Paul's time in this role, he was the UK's Data Protection Officer, dealing with all data subject access requests (DSARs), implementation of a 'Privacy by Design' model for all new projects across the business, and the conducting of data protection impact assessments (DPIAs). Paul was also the subject matter expert for all data protection related issues across the business and the lead contact for regulatory authorities in the UK.
