

# SELVI DATA PROTECTION MANAGER

## LANGUAGES

- ✓ Dutch (native)
- ✓ English
- ✓ French

## PROFILE

Selvi is a multilingual data protection professional with a Bachelor of Laws from the University of Edinburgh. Having worked across various industry sectors, including Law, Healthcare, and Logistics, she has experience in drafting contracts that comply with local laws and developing efficient operational procedures.

After successfully completing The DPO Centre DPO Academy programme, Selvi combines academic knowledge with practical experience gained through direct client work. Her legal background and international experience support an analytical approach to data protection, while her ability to quickly adapt enables her to contribute effectively across diverse client environments.

## QUALIFICATIONS

- ✓ CIPP/E
- ✓ CIPM
- ✓ Bachelor of Laws (LL.B.), University of Edinburgh

## SAMPLE EXPERIENCE

As a Data Protection Manager (DPM), Selvi supports the delivery of client-facing work under the guidance of our DPOs. Her responsibilities include assisting with compliance audits, drafting Records of Processing Activities (RoPAs), and conducting Data Protection Impact Assessments (DPIAs). She also contributes to policy development and training delivery, helping organisations strengthen their governance frameworks.

Previously, Selvi supported legal research at a French law firm, where she reviewed employment contracts for compliance with French labour law and drafted amendments as needed. She also gained experience in the digital health sector, where she developed standard operating procedures, analysed industry trends to inform strategic recommendations, and established partnerships with clinics, schools, and daycare providers.
