PROFILE

Mubarik is a versatile data protection professional with experience across consultancy, technology, and customer success roles. Holding CIPP/E and CIPM certifications, he helps organisations build privacy-first frameworks that meet global regulatory requirements.

With a strong foundation in data governance and stakeholder engagement, Mubarik brings a practical, solutions-driven approach to privacy challenges. He has experience working within technology-led environments, using software platforms and tools to support effective compliance strategies and deliver scalable, client-focused solutions.

QUALIFICATIONS

- ✓ Fellow of Information Privacy (FIP)

SAMPLE EXPERIENCE

As a Data Protection Manager for a global privacy consultancy, Mubarik developed compliance frameworks aligned with multi-jurisdictional regulations, including the GDPR and CCPA. He led data protection gap analyses, conducted DPIAs, maintained RoPAs, oversaw data breach response procedures, and advised clients on legal and regulatory risks.

Previously, Mubarik worked as a consultant for a privacy-focused software developer where he collaborated with businesses across varying sectors, including Life Sciences and Technology. He guided clients through complex privacy journeys by designing tailored compliance roadmaps and developing data governance strategies to support long-term privacy maturity. He also supported the implementation of OneTrust, using the platform to streamline privacy management.
