

JOB DESCRIPTION

DATA PROTECTION OFFICER - EU

Job title	Data Protection Officer - EU
Reporting to	Pod Leader
Job location	Onsite with clients/from home
Employment status	Contract via Employer of Record

CANDIDATE PROFILE

We're seeking experienced Data Protection Officers based in the European Union to support our continued growth and EU expansion. The role requires a proven track record in data protection, a strong compliance focus, excellent communication and presentation skills and the ability to influence and support positive change within an organisation.

As we are a service business, we look only to recruit proactive, motivated, and enthusiastic team players who are commercially savvy and passionate about their work. The ideal candidate will align with our core values and contribute positively to our culture and #OneTeam approach. We work closely together, sharing knowledge, updating processes and constantly improving best practice frameworks.

Successful candidates will excel at managing a diverse client portfolio, skilfully prioritising tasks, handling conflicting demands with diplomacy, and upholding the highest standards of confidentiality and professionalism. Attention to detail and a commitment to delivering high-quality work within deadlines are also essential, as is the ability to work independently while actively supporting the growth and development of our wider team.

Candidates should also demonstrate an open and forward-thinking mindset, particularly regarding the adoption of emerging technologies, including the responsible use of artificial intelligence (AI), to enhance efficiency, effectiveness, and service delivery.

The role combines remote work with occasional on-site client visits, which may include travel and occasional overnight stays to support full working days. There is also the requirement for twice yearly visits to the UK for company team days and social events. Only candidates able to meet these travel requirements should apply. All travel expenses will be covered or reimbursed. Applicants must hold an EU or UK passport, a full driving license, and ideally have access to a car.

Given our central business location and internationally distributed client base, the role also requires fluency in both written and spoken English, as well as at least one other widely spoken European language i.e German, French or Spanish.
