

PETER DATA PROTECTION OFFICER

SPECIALISMS

- ✓ Retail
- ✓ IaaS and SaaS Technologies

LANGUAGES

- ✓ English

PROFILE

Peter is a highly communicative and people-focused data protection professional with experience across a diverse range of sectors, including SaaS, Automotive Manufacturing, Charity, Education, and Insurance. Known for his approachable style and ability to engage stakeholders, Peter is confident delivering training, guiding teams through audits, and leading data discovery exercises.

Peter brings a structured, solutions-oriented approach to data protection, supporting organisations with clear guidance tailored to their operational needs. He often serves as the go-to advisor for all GDPR and privacy-related queries, combining his extensive knowledge and practical mindset to help clients embed sustainable data protection practices.

QUALIFICATIONS

- ✓ CIPT
- ✓ Data Protection Certificate in Anti-Money Laundering and Financial Crime
- ✓ GNVQ in Customer Service
- ✓ GNVQ in Team Leadership

SAMPLE EXPERIENCE

Working with international organisations, Peter has developed a strong understanding of how to align business practices across multiple jurisdictions within a cohesive global framework. He supports businesses in strengthening their data protection compliance by raising awareness of upcoming legislative changes and regularly reviewing existing frameworks to ensure their ongoing relevance. By effectively managing the interplay between operational and technological measures, he supports robust data governance across organisations.

As the primary DPO for a major automobile manufacturing group, Peter was responsible for identifying and reporting compliance risk areas, maintaining RoPAs, conducting LIAs and DPIAs, and delivering data protection training across the organisation. He also has extensive experience dealing with Data Subject Access Requests (DSARs), working closely with customer resolution teams.
