

PAUL

HEAD OF DATA PROTECTION UK

DATA PROTECTION OFFICER

SPECIALISMS

- ✓ Live Facial Recognition (LFR)
- ✓ Biometrics
- ✓ Technology

LANGUAGES

- ✓ English (native)

PROFILE

Paul is a highly skilled Data Protection Officer (DPO) with deep expertise in biometric technologies and the lawful deployment of AI-driven solutions, including Live Facial Recognition (LFR). He has extensive experience leading privacy teams and supporting fast-paced commercial clients across the UK, EU, and North America.

As Head of Data Protection UK, Paul motivates and oversees our UK DPO team, helping to shape and maintain exceptional service delivery. His ability to distil complex data protection challenges into clear, actionable strategies contributes to The DPO Centre's growing knowledge base and operational resilience.

QUALIFICATIONS

- ✓ CIPM
- ✓ IBITG Accredited Certified EU General Data Protection Regulation Practitioner
- ✓ BSc (Hons) in Forensic Science, Anglia Ruskin, Cambridge

SAMPLE EXPERIENCE

Paul's breadth of experience includes working with a wide range of prominent and respected public and private organisations across the Technology, Healthcare, Law Enforcement, and Transport sectors.

As the DPO for a leading provider of body-worn video systems, Paul led AI-based LFR initiatives. His innovative operational and strategic privacy guidance helped establish pioneering compliance standards that are applicable across multiple industry sectors.

Working with a not-for-profit organisation, Paul helped solve data protection challenges for a night-time economy project using LFR technology. He ensured the technology was compliant with applicable laws and developed required privacy documentation, including Data Protection Impact Assessments (DPIAs), Legitimate Interest Assessments (LIAs), and privacy statements.
