PROFILE

Katharine is a dedicated professional with 15 years' experience in the Financial Services sector. With a strong understanding of regulatory requirements and confidentiality obligations, she brings extensive experience managing Data Subject Access Requests (DSARs) and delivering compliant, client-focused solutions.

Combining meticulous attention to detail with excellent communication skills, Katharine supports organisations in meeting their data protection obligations efficiently and accurately. Her background in regulated environments enables her to deliver structured, deadline-driven support across complex privacy workstreams.

SAMPLE EXPERIENCE

As a Lead Associate within a DSAR team at a global financial technology organisation, Katharine managed end-to-end DSAR responses on behalf of clients. She was responsible for data collation, applying appropriate redactions, and ensuring responses were issued within strict timeframes to mitigate regulatory risk.

Katharine regularly handled GDPR-related queries, liaised with management companies and internal teams to resolve complex issues, and ensured correspondence met high quality standards. She also drafted and reviewed internal procedures, aligning them with business operations to create streamlined, compliant processes. Her role required up-to-date knowledge of financial regulations and data protection law, alongside strong stakeholder engagement and quality assurance oversight.
