### PROFILE

Peter is a highly experienced Data Protection Officer and Fellow of Information Privacy (FIP), holding both CIPP/E and CIPM certifications. With nearly 20 years' experience, he has expert knowledge of data protection regulations and a strong track record of managing compliance and assurance programmes within large corporate environments.

A pragmatic and outcome-focused problem solver, Peter works closely with stakeholders to embed best practice and deliver effective, business-aligned data protection strategies. His ability to translate regulatory requirements into practical solutions supports organisations in achieving sustainable, high-quality compliance.

- ✓ Fellow of Information Privacy (FIP)
- ✓ CIPM
- ✓ CIPP/E
- ✓ ISEB (BCS) Certificate in Data Protection
- ✓ GDPR Practitioner Certificate
- ✓ Master of Laws (LL.M.) in Information Rights Law and Practice

### SAMPLE EXPERIENCE

Peter has worked as a data protection and privacy consultant, advising organisations on the design of robust compliance programmes. He has developed and implemented policy frameworks, delivered training, and provided practical guidance to support organisations in meeting their regulatory obligations.

As a Data Privacy Specialist within an independent consultancy, Peter conducted comprehensive gap analyses of existing compliance programmes and redrafted policies, procedures, and client-facing materials. He supported Data Protection Impact Assessments (DPIAs) and Data Processing Agreements (DPAs) and implemented an AI governance policy to promote the ethical and compliant use of emerging technologies.

Previously, as a Privacy Manager within a health insurance organisation, Peter led the implementation of Standard Contractual Clauses (SCCs) and International Data Transfer Agreements (IDTAs) across multiple jurisdictions, strengthening the organisation's approach to international data transfers and regulatory compliance.
