

MICHAEL

DATA PROTECTION SUPPORT OFFICER

LANGUAGES

- ✔ English

PROFILE

Michael is a certified Data Protection Officer and experienced business analyst with over 10 years' experience delivering complex projects. He has a strong understanding of GDPR requirements and a proven ability to translate regulatory obligations into clear, practical processes within large organisations.

With a structured, analytical approach, Michael works effectively with stakeholders at all levels to support the implementation of robust data protection practices. His background in requirements gathering and process design enables him to contribute to well-organised, compliant, and scalable privacy frameworks.

QUALIFICATIONS

- ✔ Certified Data Protection Officer
- ✔ CPD in Business Analysis & Project Management

SAMPLE EXPERIENCE

Michael has supported a wide range of data protection activities, including Records of Processing Activities (RoPA) development, Data Protection Impact Assessments (DPIAs), and Data Subject Access Request (DSAR) management. He has also contributed to data mapping exercises, breach investigations, and governance gap analyses, helping organisations identify risks and implement appropriate mitigation measures.

In his previous role as a DPO within the public sector, Michael led an organisation-wide GDPR transformation programme. This involved structured requirements gathering, extensive process and data mapping, and the design of a multi-year compliance roadmap. He worked closely with senior leadership and cross-functional teams to prioritise actions based on business risk and embed a culture of data protection across the organisation.
