PROFILE

Amy is an accomplished data protection professional with CIPM, CIPP/E, and cybersecurity ISC2 certifications. She has vast experience working across multiple sectors, including Life Sciences, Finance, Insurance, and Facilities Management.

With a strategic and solutions-driven approach, Amy excels at developing and implementing robust data protection frameworks and conducting thorough risk analyses. Known for her sharp analytical skills, attention to detail, and ability to communicate with key stakeholders, Amy is highly effective in managing privacy risks, guiding teams, and ensuring that data protection and cybersecurity protocols are aligned with business objectives.

- ✓ Certified in Cybersecurity
- ✓ Bachelor of Laws (LL.B.), University of Bristol

SAMPLE EXPERIENCE

Amy works as the primary DPO for several global groups across sectors including Recruitment, Logistics, and Construction. Drawing on her deep knowledge of multi-jurisdictional data protection laws and sector-specific legislation, she delivers proactive solutions to complex privacy challenges, including the responsible governance of AI. Amy also provides data protection support to Life Sciences organisations with clinical trials in several countries and acts as an EU/UK Representative for non-EEA businesses, liaising with regulators and responding to data subject enquiries.

Prior to joining The DPO Centre, Amy was the Data Privacy Business Partner for a leading facilities management company. She developed and maintained compliance frameworks across Public and Private sectors, supported M&A activity, and led cross-functional teams on Data Subject Access Request (DSAR) handling and breach response.
