PROFILE

Louise is a results-driven data protection professional with extensive experience working in complex and evolving regulatory environments. Having worked with organisations across a range of sectors, she has helped embed effective governance frameworks and improve accountability.

A skilled communicator with a pragmatic approach, Louise builds strong relationships at all levels and helps organisations strengthen compliance through positive coaching and practical guidance. Her adaptable mindset and strong understanding of sector-specific legislation enable her to deliver tailored, business-focused privacy solutions.

QUALIFICATIONS

- ✔ BCS Foundation Certificate in Data Protection
- ✔ ISO 9001 Internal Auditor Certification

SAMPLE EXPERIENCE

Louise has worked as a Data Protection Officer for organisations across sectors, including Consumer Products, Healthcare, and Charities. She has supported both UK and global businesses, conducting gap analyses and developing strategic implementation plans to support compliance maturity. Her work has included advising on sector-specific legislation, managing incident response, reviewing Data Processing Agreements, and developing policies and training programmes tailored to organisational needs.

As DPO for a political organisation, Louise strengthened their accountability framework and ensured ongoing statutory compliance. She also implemented a robust standard operating procedure for Data Subject Access Requests (DSARs), improving consistency, efficiency, and legal compliance across the response process.
