PROFILE

Dom is a CIPP/E and CIPM accredited Data Protection Officer (DPO) with over a decade's experience in the field. He has worked across the Finance, Information Technology, Education, and Charity sectors, helping organisations understand privacy risks and aligning data protection practices with business needs.

Dom is a confident communicator who can effectively liaise with stakeholders across businesses, from delivering training to frontline staff to reporting to C-suites. He has a thorough understanding of multi-jurisdictional data protection legislation and assists organisations in complying with complex regulatory requirements.

QUALIFICATIONS

- ✓ Fellow of Information Privacy (FIP)
- ✓ Information Security Management Systems
- ✓ CIPP/E
- ✓ CIPM
- ✓ ISEB (BCS) Certificate in Data Protection
- ✓ BA (Hons) in Politics and International Relations, University of Reading

SAMPLE EXPERIENCE

As the DPO for a leading veterinary care organisation, Dom led a team of privacy and compliance professionals across the UK and EU. He established a suite of policies that aligned with multi-jurisdictional data protection requirements and oversaw the completion of intragroup data sharing agreements.

Dom has extensive experience working for international organisations, managing data protection practices across 30 jurisdictions. He has developed compliance procedures, managed incident reporting and root cause analysis, conducted risk assessments, and implemented information governance frameworks. Dom has also delivered bespoke data protection training and established effective processes for Data Subject Access Requests (DSARs).
