PROFILE

Pippa is a CIPM, CIPP/E, and CIPT certified Data Protection Officer with a first class degree in law (LL.B) and a Master's degree in law and social justice (LL.M). She is a fantastic communicator and has experience working with organisations in a range of sectors, using her exceptional analytical and problem-solving skills to provide clients with pragmatic advice and tailored support. She enjoys staying up-to-date with the latest developments in international data protection law and is always keen to expand her knowledge and sector expertise.

Pippa has specialised expertise in data subject rights and works closely with our internal DSAR Response team to deliver a high-quality service. As a mentor for new team members, she shares her knowledge and experience, offering valuable insights and guidance. Pippa is passionate about data protection, often speaking at universities and events to encourage graduates to pursue careers in this field.

QUALIFICATIONS

- ✔ CIPM
- ✔ CIPP/E
- ✔ CIPT
- ✔ OneTrust Certified Privacy Professional
- ✔ Master of Laws (LL.M.) in Law and Social Justice, University of Leeds
- ✔ Bachelor of Laws (LL.B.)

SAMPLE EXPERIENCE

As the primary DPO for a US Life Sciences sponsor with trials in more than 20 countries, Pippa is responsible for drafting and reviewing country-specific Informed Consent Forms, Clinical Trial Agreements, Data Protection Impact Assessments, and providing timely responses to urgent queries through a dedicated inbox.

As the lead Data Protection Officer for a global health and safety organisation, Pippa manages a small team of DPOs and provides data protection guidance across multiple jurisdictions. She utilises OneTrust assessments to complete the company's Records of Processing Activities and DPIAs and liaises with stakeholders around the world.

Working with organisations in the Life Sciences sector, Pippa has supported key stakeholders in navigating the complexities of data protection laws alongside clinical trial regulations. Also, collaborating on annual training to ensure compliance with multi-jurisdictional data protection requirements.
