

MAGDALENA

DATA PROTECTION OFFICER

SPECIALISMS

- ✓ AI
- ✓ Digital Transformation Programmes
- ✓ Financial Sector

LANGUAGES

- ✓ Polish (native)
- ✓ German (native)
- ✓ English

PROFILE

Magdalena is a highly experienced Data Protection Officer and dual-qualified attorney in Germany and Poland. With over 15 years' experience, she combines legal expertise with pragmatic, business-focused advice to support organisations with complex data protection requirements.

Magdalena has a deep understanding of multi-jurisdictional GDPR governance and regulatory risk. Working collaboratively with senior stakeholders and cross-functional teams, she helps establish robust accountability frameworks and embed effective privacy controls across systems, third-party relationships, and business processes.

QUALIFICATIONS

- ✓ Master of Laws (LL.M.)

SAMPLE EXPERIENCE

As Group DPO for a multinational debt management company, Magdalena led data protection governance across six EU jurisdictions within a highly regulated environment. She advised senior stakeholders on compliance matters, aligning GDPR requirements with business operations, technology procurement, and vendor risk.

Magdalena designed and implemented Records of Processing Activities (RoPA) and Data Protection Impact Assessments (DPIA), managed Data Subject Access Requests (DSARs), and reviewed service agreements. She also liaised with supervisory authorities, preparing regulatory submissions and remediation plans, and delivered GDPR and AI governance training across organisations.

Previously working as an Attorney at Law and Legal Counsel, Magdalena drafted Data Processing Agreements (DPAs) and cross-border commercial contracts. She designed GDPR-compliant retention, deletion, and accountability frameworks across different operating models and developed internal policies and governance frameworks to support ongoing compliance.
